## JAMESTOWN IS AGAINST COUNTY

Say it Would Handicap High School.

Resolutions To General Assembly People of Jamestown Section of County Declare That Usefulness of Institution Would Be Greatly Impaired If Piedmont County Is Established—Much Opposition to Measure.

Tuesday afternoon at Jamestown was held a mass meeting of the patrons of the Jamestown High School and others interested in the success of the institution at which resolutions were passed, vigorously opposing the formation of Piedmont county. The opposition, as will be seen from the resolutions which are given below, is based on the ground that the formation of the new county will greatly handicap the school and impair its usefulness. In fact, the resolutions declare, there is a likelihood that the state's appropriation to the school would be cut off as the institution would be a county-line school, cutting off half the present territory in the district.

At the mass meeting a committee was appointed to draw up resolutions and the following were unanimously adopted:

To the Senators and Representatives from Guilford county in the General Assembly of North Carolina:

Whereas a bill has been introduced in the General Assembly for the establishment of the county of Piedmont out of portions of Guilford, Randolph and Davidson counties, which, it is proposed, shall embrace a part of the local tax district of the Jamestown Graded school; We, the patrons of the Jamestown Public High School of Guilford county desire to enter our protest against the proposed dismemberment for the following reasons:

First—During the past ten years Guilford county has made such rapid increase in population and wealth that her financial condition is fast becoming such as to enable her to do great things for the development of good roads and good schools, and the promotion of scientific and practical instruction in agriculture and domestic science and general rural progress. At present a movement is on foot which will probably result in the establishment of a county department of sanitation, and a department of agriculture and domestic science, and as we are very much in favor of this progressive movement, we desire to enter our protest against anything that might retard this progressive step in the development of the county.

Second—The establishment of the proposed county will leave the Jamestown High school a county line school, which will seriously restrict its field of usefulness, and thus prevent it becoming the model high school of Guilford county, which we had intended making it. In addition to the regular literary course in the high school, we now have a department of domestic science, and it is our purpose to add a department of agriculture next year, if nothing is done to handicap us in our efforts.

Third—We believe that with the proposed new county line running within one-third of a mile of the Jamestown school building and thus cutting off almost one-half of the territory of the district, it will utterly destroy the school as a high school and seriously weaken it as a graded school.

Fourth—We believe from what we know of the taxable values of property in the proposed new county, that we will lose one dollar (\$1.00) on all children of school age in that part of the district that lies in the proposed new county. Not only will there be a decrease in the per capita apportionment to the school, but the final result will be the withdrawal of the state and county appropriations to the high school, and thus leave children of high school age in this part of the county without high school facilities.

Fifth—As citizens of Jamestown township we know that at least 95 per cent of the people of that portion of Jamestown township which is proposed to be cut off, are unalterably opposed to being in the proposed new county, believing that it will greatly increase their taxes and result in no benefit whatever to them.

Wherefore—It is resolved by the undersigned committee, appointed by the citizens' meeting held at Jamestown,

Tuesday, January 17, 1911, a voted unanimously opposition to the proposed new county, that of the establishment of the county of Piedmont be made public, and copies of these resolutions be sent to the members of the Legislature from Guilford county, and also a copy be sent to the State and county papers for publication.

This Jan. 18, 1911.

J. R. Gordon, chairman of committee; D. W. Moore, J. H. Smith, A. L. Johnson, A. L. Vickory, W. G. Ragsdale, G. L. Hodgins, E. J. Coltrane, chairman of citizens' meeting; O. M. Bundy, secretary.

## BILL FOR FARM LIFE SCHOOLS

It Will Probably Become a Law.

After Conference With Officers of Farmers' Union and Supt. Joyner Senate and House Committees Will Report Bill Favorably—Committees On Counties Wrestling With Propositions For New Counties—Bond Issue For School Purposes.

Raleigh, Jan. 19.—As a result of a joint meeting of the educational committees of the Senate and House with the officers and legislative committee of the State Farmers' Union the bill asking the legislature to provide for the establishment of farm-life schools will be reported favorably. The bill presented by the Farmers' Union officers provides for an appropriation of \$2,500 by the state in each county that raises a like sum and also arranging for equipping the school. Speeches in favor of the bill were made by State Supt. Joyner and Dr. H. Q. Alexander, president of the Farmers' Union. A joint meeting of the educational and agricultural committees of the senate and house and the officers of the Farmers' Union is to be held next Monday night to further consider the bill.

The senate judiciary committee appoints Senators Thorne and Starbuck as a sub-committee to draft a substitute for the bill reducing the number of peremptory challenges in capital cases from 23, and the number will most likely be made 10.

The senate and house committees on counties, cities and towns are wrestling with the proposition to establish the county of Avery out of portions of Mitchell and Caldwell counties. The claims of the advocates of the new county were presented at a joint meeting tonight and another joint hearing will be held tomorrow to hear the opposition. It will be several days before the committees will be ready to report. These committees will also be called upon to hear the claims for the establishment of three other new counties, Hoke, Piedmont and Ransom. The joint hearing on the Hoke county matter has been set for January 24, the idea being to form Hoke county out of Cumberland and Robeson. The Piedmont county advocates are to be heard January 31. They propose to create Piedmont county out of Guilford, Davidson and Randolph. Both of these propositions will be strongly opposed. A bill has been prepared creating Ransom county out of portions of Wake, Franklin, Nash and Johnston, but it has not yet been introduced in the general assembly.

Ex-Gov. T. J. Jarvis, of Greenville, delivered a forceful and convincing speech before the educational committees of the general assembly tonight in the hall of the house, urging a bond issue for school purposes, thereby insuring that the educational work of the state would be carried on with more thoroughness and effectiveness. In addition to the member of the committees present a number of other legislators and citizens heard the address with keen interest.

Quiet Home Wedding. Last evening at 9 o'clock at the home of Mr. and Mrs. J. M. Waynick, Simpson street, Mrs. Alice Hopkins Speight and Mr. Alvis Daniels Milner, of Reidsville, were united in marriage, the ceremony being performed by Dr. D. I. Craig, of Reidsville. Only intimate friends were present to witness the ceremony. Mr. and Mrs. Daniel will reside in Reidsville.

Refused To Vacate. Warrants were issued yesterday against R. Roberson, J. C. Olive, A. J. Schlosser and Emil Schlosser, charging them with refusing to vacate their stalls in the city market after being notified to do so. The cases will come up before Judge Eure this morning.

Addresses On Young People's Work Tonight. Revs. Flake and Barrett, prominent B. Y. P. U. workers, will make addresses on young people's work at the First Baptist church tonight. Every one interested in this branch of church work is invited to attend.

## ATTEMPTED TO TAKE HIS LIFE

Young Man Swallows Drug With Suicidal Attempt—Prompt Work of Physician Saves His Life.

Frank Murray, a young man in the employ of Smith Ice Cream Company, attempted suicide yesterday afternoon by taking a drug of some sort. By prompt and vigorous work Dr. R. O. Dees saved his life.

When found he was in the delivery wagon, which had been halted at the rear of the store. He was on the seat leaning against the side of the vehicle. Tom Pratt, another employe of the establishment, first discovered that there was something to pay with Murray. As soon as the latter did not reply to remarks addressed to him and his fellow employe had had an opportunity to look closely at him, Mr. Pratt ran into the store and informed Mr. Seymour Smith of his condition. Mr. Smith hurried a messenger off for Dr. R. O. Dees, whose office was across the street in the McAdoo building.

Dr. Dees had Murray taken to his office and administered usual treatment for poisoning cases. The young man's stomach was washed out, stimulants administered and "punishment" inflicted to keep him from going off into a sleep that, if not interfered with, would end in death. So the doctor put the would-be suicide through a course of sprints, pulling his hair, beating him in the face with a cold towel and mashing his thumb nails. Every now and then Murray would beg to be allowed to sleep just ten minutes but only got some more "punishment" as a result.

When the doctor was bringing him around in good shape, he asked him if he didn't think he was a plumb fool for the rash deed and Murray said, "yes, about the worst ever." Later he was carried to his room on Park avenue.

Dr. Dees said the symptoms were those of opium poisoning but he could not say exactly what it was Murray swallowed.

Thinking that he was going to make a "go" of it young Murray left a note in which he said his good byes and gave some advice which indicated that he had been leading a fast life. He had left a further clue to his attempt on his life by remarking to an acquaintance that he had had a fight the night previous and used up another man rather badly, but inquiry at police headquarters disclosed no record there of such encounter.

The Messrs. Smith describe him as a quiet, steady worker and as having given them no trouble.

Acquaintances believe that he will not repeat the attempt, but in the light of the close call that he had will realize how valuable a thing life is and cling to it all the more tenaciously for his foolish action of yesterday.

How serious his condition was when found will be gathered from the statement of Dr. Dees that had he not been found until ten minutes later, his condition would have been such as to preclude the possibility of his life being saved.

## HONOR MEMORY OF R. E. LEE

Appropriate Exercises Held Last Night.

Able Address by Dr. J. L. Mann in Presenting Engraving of Lee to Public Library—The Gift of Daughters of Confederacy—Accepted by Mr. E. P. Wharton—Exercises Greatly Enjoyed by Audience.

The Lee-Jackson Day exercises, commemorating the birthday of that matchless leader, Robert Edward Lee, in Greensboro were simple, but especially appropriate and of a most enjoyable nature. The exercises were held last evening at 8 o'clock in the Smith Memorial building and consisted in the singing of old time songs and the presentation of a steel engraving of Lee to the Greensboro Public Library, the gift of Guilford Chapter, Daughters of the Confederacy.

The hall had been beautifully decorated with the colors of the Confederacy, the rostrum railing being draped with red and white bunting. The engraving of Lee was on an easel placed in a prominent place on the rostrum. In the rear of the engraving and almost directly over it was the handsome flag of Guilford Chapter Daughters of the Confederacy.

Rev. Melton Clark presided over the exercises. Prayer was offered by Rev. Thos. G. Faulkner, being preceded by a quartet, "Tenting on the Old Camp Ground," by Messrs. Cunningham, Dickerson, Phillips and Frazier. Following a solo, "Annie Laurie," by Miss Eugenia Patterson, Rev. Mr. Clark introduced Dr. J. L. Mann, superintendent of the Greensboro schools, who delivered the presentation address.

Dr. Mann paid a beautiful tribute to that gallant chieftain and in so doing spoke quite entertainingly on the cause. Lee espoused and the patriotism of Southern men. "No apology is necessary for the deeds of those heroes of '65," Dr. Mann declared. He pointed out that since that time many great men had said that the people of the South had good reasons for believing as they did regarding the freeing of the slaves at that time. It afforded him great pleasure, he said, and he considered it a signal honor in having the opportunity of presenting to the children's department of the library the engraving of Lee.

The gift was accepted by Mr. E. P. Wharton, who said that he considered it an honor to be associated with Lee in any way. He spoke of visiting Lexington some time ago and viewing the study and the tomb of Lee. He expressed his profound gratitude, as a trustee of the library, for the gift.

The quartet sang "Massa's in de Col' Col' Ground," following which the benediction was pronounced by Rev. E. K. McLarty.

## MRS. TAFT IN COURT.

Hears Close of Arguments in the Standard Oil Case.

Washington Post. For the first time in the history of the Supreme Court, the wife of the President of the United States yesterday sat within the bar of that history-making tribunal during the progress of a trial. Mrs. Taft listened to the big trusts of the land fighting for their lives.

With a party of her friends, Mrs. Taft appeared in the courtroom as the lawyers were about to begin the closing arguments in the suit of the Government for the dissolution of the Standard Oil Company, of New Jersey, under the Sherman anti-trust law. The wife of the President and her friends were escorted to a seat within the bar, where they could miss no point in the Titanic forensic fray. With Attorney-General Wickersham making the final argument for the Government and John G. Johnson making the closing plea for the Standard Oil Company, the first lady in the land had an opportunity to witness in action the stars of this great legal drama.

Definition of the term "monopoly" in the case of the Standard Oil Company will apply with equal force not only to the Tobacco Trust, but to scores of other big corporations. The wife of the President, whose administration has been pressing these prosecutions, had, therefore, the unique privilege of beholding the close of a struggle whose settlement will have a sweeping effect on the commercial future of the United States.

It has been said of Mr. Wickersham that his arguments in these big trust cases have been the most masterly efforts of his career. In John G. Johnson, one of the greatest leaders of the American bar, the Attorney-General has had a foe worthy of his steel.

The clash between these two great lawyers yesterday was worthy of the interest that Mrs. Taft seemed to give it. From the moment that Mr. Wickersham began his arraignment of the Standard Oil Company, which he described as "the kind of monopoly at which the Sherman law meant to strike," until Mr. Johnson demanded to know why, if bigness was the test of monopoly, Congress had not stated "how big one must be to be big," the interest of Mrs. Taft and her friends did not flag for an instant.

## GOVERNOR WILSON'S AID.

Tumulty is His Name, But Mild His Nature.

New York World. Saying that he regarded the office of secretary to the Governor as one of the most important in the State administration and one that should be filled by a man of tact, high character and unusual knowledge of affairs, Gov-elect Woodrow Wilson yesterday announced the appointment of ex-Assemblyman Joseph P. Tumulty, of Jersey City, to that post under the new administration. "I feel sure," said Dr. Wilson, "that Mr. Tumulty will give distinction to the office because of his universally recognized qualifications for faithful and disinterested public service."

Mr. Tumulty has been one of Dr. Wilson's most ardent supporters in the Senatorial fight against "Jim" Smith, of Newark. Thirty-two years old, a lawyer and for the last four years a member of the lower house of the Jersey Legislature, Mr. Tumulty has been a progressive and is considered one of the best speakers in the Assembly.

Mr. Tumulty has been the official representative in Northern New Jersey of James E. Martine, who received the popular endorsement for Senator at the polls last November and whose cause Governor-elect Wilson is championing. The position of private secretary pays \$4,000 a year.

## WONDERFUL TOYS FOR ROYAL BABES.

Miniature Railroad Sent Child Sovereign of China Cost Russia \$25,000.

Wonderful and costly toys are made for some of the royal children of the earth.

The little Crown Prince of Russia recently sent to Pu Yi, the baby sovereign of China, a toy railroad that is perfect in every detail. Little engines carry beautifully fitted express, accommodation and freight trains over three-quarters of a mile of toy track. Miniature stations, block signals, switches, everything that goes to make up a complete modern railway, are included in the Little Czar's Christmas gift.

The toy cost the Russian Government \$25,000. In return for it, says the Christian Herald, the baby Pu Yi sent to the Czarevitch a trained dwarf elephant and a collection of curious Chinese playthings, among which queer little manikins, no bigger than the ordinary tin soldier, dance queer dances and act out Chinese fairy tales. Miniature jeweled ivory men-o-war sail about on a little glass sea that by some ingenious arrangement reflects shore lines and clouds, sky and trees, for all the world like a real harbor.

Apocryph of these wonders there is in the possession of the Czar a very remarkable watch. It was made by a Polish mechanic named Jules Curron. The Czar had heard some wonderful tales about the inventive ability of this man, and wishing to test personally his skill, he sent him a parcel containing a few copper nails, some wood clippings, a piece of broken glass, an old cracked china cup, some wire and a few cribbage board pegs. Accompanying this was a command to make them into a time-piece.

Within a remarkably short time the Czar received them back in the shape of a watch. The case was made of china and the works of the other odds and ends. So pleased and astonished was the Czar that he sent for the man and conferred several distinctions upon him.

### Saves Two Lives.

"Neither my sister nor myself might be living today, if it had not been for Dr. King's New Discovery," writes A. D. McDonald, of Fayetteville, N. C., R. F. D. No. 8, "for we both had frightful coughs that no other remedy could help. We were told my sister had consumption. She was very weak and had night sweats but your wonderful medicine completely cured us both. It's the best I ever used or heard of." For sore lungs, coughs, colds, hemorrhage, la grippe, asthma, hay fever, croup, whooping cough, all bronchial troubles, it's supreme. Trial bottle free. 50c. and \$1.00. Guaranteed by Fariss-Klutz Drug Co.

### ESSEN'S BAKERY.

Said to Be the Largest Breadmaking Concern in the World.

The largest bakery in the world is located in Essen, Prussia, the home of the great Krupp gun factory. It is a vast building, in which seventy workmen, divided into two shifts, work night and day. Everything is done by machinery, says the London Post. A screw turns unceasingly a kneading trough, into which are poured some water and ten sacks of flour of 200 pounds each.

This machine makes about 40,000 pounds of bread each day, in the shape of 25,000 small loaves and 25,000 large loaves, produced by 230 sacks of flour of 200 pounds each. All the operations of breadmaking are performed in this colossal bakery. The wheat arrives there, is cleaned, ground and brought automatically to the kneading trough by a series of rising and descending pipes.

There are thirty-six double ovens, and the workmen who watch over the baking of the bread earn from 8 to 10 cents an hour, making an average of 90 cents a day for eleven hours on duty. They have coffee and bread free; also the use of a bathroom, for they are required to keep themselves spotlessly clean and must wash their hands eight times a day.

### Solves a Deep Mystery.

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice and to rid the system of kidney poisons that cause rheumatism, Electric Bitters has no equal. Try them. Every bottle is guaranteed to satisfy. Only 50c. at Fariss-Klutz Drug Co.

If a girl is only pretty enough she can get some fellow to teach her to skate every winter.

Mr. A. G. Coffin says that when he went home Saturday night that he thought, and all his people thought, that he had pneumonia. He rubbed a box of Mother's Joy on his chest, as directed, and went to sleep, and he says the next morning he was entirely well. And he fully believes it broke up a case of pneumonia. All who doubt this will ask Mr. Coffin. For sale by Conyers & Sykes.

It is a pity that South Carolina's former chief executive could not have been continued in office. He was a man of sound judgment, practical common sense, and ideals far in advance of those of the man who succeeds him. If one is to judge Governor Bleasie by the policies set forth in his inaugural address, it is to be hoped that public opinion may not be too harsh in its judgment of his constituency.

Mr. Hobson, although a member of the House of Representatives, was never intended for a statesman. He seems to know how to help along only those measures that are for battleship appropriations; he wants four new ones now. If he were to set up a private business where the war game had no part in his life, and were compelled to depend upon his own resources for a livelihood, his profits would fall far short of his present income.

It is amusing to note the various organizations of the corporate body of Greensboro "resolving" in the interest as they claim of High Point. Pray will some one please advise us what has the city of Greensboro to do with our affairs.—High Point Enterprise.

The County Board of Education, the County Commissioners, the County Farmers' Union and the County Bar Association, this latter, however, attended only by Greensboro lawyers, are the organizations that have been doing the "resolving" in connection with the new county. We just mention this to enable our contemporary to keep its facts straight.

The Chamber of Commerce should be able to do some good work for Greensboro this year. It has closed a good year's work and the satisfaction of success in the past is a favorable condition for success in the future. Other favorable circumstances are the facts that Greensboro has shown an encouraging growth in the last ten years, that the county as a whole has developed in even a more satisfactory manner than the city, that we have here the best location in the State and a delightful climate, that our school facilities are being substantially improved, that it is very probable this city will soon be on an inter-urban railway line, and so on for we don't want to be tedious and it would be wearisome to recount all the advantages that Greensboro possesses. The Chamber of Commerce is splendidly officered and we predict that this will be a year when it will live peculiarly up to its opportunities for advancing the best interests of Greensboro. It should be loyally supported by the public spirited men of the city.

On last Saturday night in the city of Philadelphia a representative body of citizens, composed of business men, educators and ministers, met to pay their respects to the mayor, under whose administration they aver the city streets have become a hog wallow, the water front is going to decay, the street cars are traveling vans of obscenity, and the treasury is insolvent. It is highly probable that all these alleged shameful conditions should not be charged directly to any one man. But it is both refreshing and significant of a better order of things to see educators, ministers, and business men leave their various personal and professional duties to come together in one common council for the one united purpose of demanding a cleaner, better and a stronger city. These matters have heretofore, and are now in some quarters, left too much in the hands of civic organizations and other societies whose influence and finances are often weak, and in the control of politicians, who too frequently promise better conditions, but who, when once

in power, do little or no better than their predecessors. It is safe to predict that there is a brighter day even now at hand for Philadelphia.

## THE NEW SCIENCE OF EFFICIENCY.

It is remarkable to note what great progress is being made and how widespread has become the new so-called science of efficiency. Mr. Frederick W. Taylor, an American, is the man to whom is due the honor for the formulating of the science and putting it upon a working basis. Perhaps most of us have read how a follower of Mr. Taylor went to work in New York and applied the principles of the science to the ordinary work of laying brick. He first found that men had been, perhaps from the time of earliest history, using eighteen motions in the placing and setting of one brick. He proceeded to show some masons where only five motions were necessary. They couldn't understand it, saying that no man ever heard of such a thing. The old way was both traditional and hereditary, and they had to be offered a bonus to toil, reluctantly, according to the new rules. At first their work was very slow, but in a few days it was found that the men who had been laying 1000 bricks per day, each, were under the new method laying 2700. The work was nearly trebled, the pay of the men was increased, and the contractor was making more money, in that he was enabled to complete a job much earlier than formerly and thence proceed to another.

The principles are simple, but the work must be in the hands of a practical man possessed of patience to try them out in a given kind of labor until success is accomplished.

A girl employed at pasting labels on boxes was said to be the fastest in the world. One of the scientific men came along, took a stop-watch, stood beside her for hours and studied her methods and movements. He finally worked out a system, had her abandon her old method and start all over. She was so slow and awkward that she became discouraged, but was induced to stick to the new plan. Even at the end of the first day, it was found that she had doubled her usual output.

Many of the greatest industries in the country are giving the new science a trial and reports are that laborers are highly interested and are in many departments doubling and even trebling their output. It stimulates rivalry and competition among employees, causes an increase in the size of the pay envelope and a better quality of service.

There is more catarrh in this section of the country than all the other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

## The Brown Rat.

The best way to make a good clearance of rats is to turn a cobra into the place they inhabit. It will clear them out in an amazingly short time. But most people prefer the rats. Were it not for cats, owls, weasels and a few other animals in combination with man, in a short time the whole country would be one vast ratery, for the rate at which these animals increase is stupendous. They are without doubt one of the worst forms of vermin, but they possess one good quality. In a tight corner few animals are more courageous than the brown rat. Rats hard pressed have been known to fly at a man's throat. Two or three, secure in a little fortress with a small opening only large enough for one at a time to come in and go out, will defy a score of ferrets, and if one ferret with more courage than his brothers does venture to enter the lions' den he must look well to himself or he will never come out alive.—London Globe.

## Organ Pipes.

The names of the different parts of an organ pipe are interesting. For instance, the air is forced in through a hole in the pointed toe of the pipe, goes through the flue (the slit cut in the side) and strikes the lip. In some cases it then hits the beard (a metal cylinder attached just below the opening) and rebounds against the lip, producing a double vibration. There is also a tongue, and the upper part is called the barrel.—Exchange.

## Faultfinding.

Often the most unhappy people are those who have lost the art of admiration and become experts in the art of faultfinding. Beauty is everywhere, but they see it not because of the flaws somewhere below it. Faultfinders should turn their magnifying glasses upon themselves and there discover why they are not loved.

## Conversation.

Conversation warms the mind, enlivens the imagination and is continually starting fresh game, which is immediately pursued and taken and which would never have occurred in the duller intercourse of epistolary correspondence.—Franklin.

## PRETTY WEDDING IN THE COUNTRY

Miss Ethel Hodgkin Becomes Bride of  
Mr. Julian White, of Raleigh—Cere-  
mony Performed at Home of Bride's  
Parents, Near City by Rev. D. M.  
Litaker—Will Reside in Raleigh.

The beautiful home of Mr. and Mrs.  
Jno. A. Hodgkin, two miles south of the  
city, was the scene of one of the pret-  
tiest weddings of the season yesterday  
when Miss Ethel Cleo Hodgkin was given  
in marriage to Mr. Julian Elder White,  
of Raleigh, Rev. D. M. Litaker, pastor of  
Centenary M. E. church, officiating.  
As the guests arrived they were re-  
ceived at the door by Misses Bessie E.  
Deans, of Goldsboro, and Pearl Bowman,  
of this city. At 11 o'clock they were  
ushered into the dining room where a  
four course luncheon was served. Fol-  
lowing the luncheon all repaired to the  
parlor to witness the ceremony.

The south parlor, where the ceremony  
was performed, was beautifully decorat-  
ed with palms, ferns and cut flowers.  
While the guests were assembling, Miss  
Marguerite Cartland sweetly sang "O  
Promise Me," accompanied by Mrs. Er-  
nest Teague at the piano. To the strains  
of the wedding march little Miss Hilda  
Hodgkin, of Roanoke, Va., cousin of the  
bride, and Master Ulton Gray Hodgkin,  
brother of the bride, entered carrying  
white ribbons, forming an aisle from  
the door to the altar, which was a bank  
of palms and ferns. The minister en-  
tered next followed by the bride and  
groom and while "Hearts and Flowers"  
was softly rendered, the vows were spo-  
ken, making them man and wife.

The bride's gown was a lovely crea-  
tion of white crepe de chine with pearl  
trimmings, made over taffeta, cut en-  
trainee. Her only ornament was a lovely  
brooch of pearls, the gift of the groom.  
She carried a shower bouquet of Bride  
roses and lilies of the valley.

Immediately after the ceremony the  
bride and groom were driven to the sta-  
tion and amid showers of rice left on  
No. 36 for a trip to northern cities. The  
bride's traveling costume was a tailored  
suit of brown with accessories to match.

The bride is the accomplished daugh-  
ter of Mr. and Mrs. Jno. A. Hodgkin and  
one of the most popular young ladies of  
the community. The groom is a rising  
young business man and holds a res-  
ponsible position with the King Drug  
Company, of Raleigh.

The handsome array of bridal gifts at-  
tested to the popularity of this couple  
and their hosts of friends wish for them  
much happiness.

They will be at home at Raleigh after  
February 1.

## Wasted Ability.

Mrs. Norton had attended the con-  
cert given at the town hall by Mlle.  
Faure, a young Frenchwoman whom  
the summer residents were trying to  
help, as she had lost all her posses-  
sions through a fire in the city studio,  
where she lived and taught.

At the end of the concert the differ-  
ent opinions expressed by the villagers  
as to the exhibition of piano playing to  
which they had listened had no effect  
on Mrs. Norton.  
"I don't know whether she played too  
loud or whether her pieces were the  
best or not," she announced deci-  
sively. "All I know is that I kept  
thinking if I could roust out that but-  
ter fingered Clancy girl that's pretend-  
ing to help me with my kitchen work  
and set that madam'selle down to  
shelling peas and beans and shucking  
corn I guess the boarders would have  
their meals somewhere near on time!"—Youth's Companion.

When a girl artist marries a fellow  
named Arthur she can still say she is  
wedded to her Art.

The people who fish for compliments  
naturally listen with bated breath.

## ANNIVERSARY EXERCISES.

Whatever Circle of Moravian Church  
Celebrates Interesting Occasion.

In the basement of the church made  
attractive by many pretty candles and  
soft gas lights the anniversary exercises  
of the Whatsoever Circle of the Moravian  
church were held last night, Mrs. John  
W. Petty, president, presiding. The pas-  
tor of the church, Rev. Carlton White,  
opened the exercises by reading the 103d  
Psalm, followed by a prayer and a hymn  
by the congregation.

Mrs. Petty read a very interesting re-  
port of the work done by the circle  
during the past twelve months. It was  
evident from this report that the faith-  
ful women banded together in this or-  
ganization have been abundantly suc-  
cessful in their various undertakings for  
the development of the church, in a  
financial, social and spiritual way. The  
President also spoke hopefully of a num-  
ber of excellent plans already made by  
the circle for activities during the com-  
ing year. A beautiful anthem, "The  
Lord is My Strength," was sung, under  
the direction of Mr. H. C. Snyder. Then  
a love feast was enjoyed, the coffee and  
buns being served by young ladies from  
the Philathea class.

An inspiring address by the pastor  
was a feature of the evening. He em-  
phasized the spirit that gives proper  
value to the little things of life, citing  
as an example the devotion of the moth-  
er in training her children to lead use-  
ful lives—the fact that thousands of  
little acts are lovingly and thoughtfully  
performed in the building of noble char-  
acters. His words were most encourag-  
ing to the ladies and will serve as a  
stimulus to greater achievement.

A very profitable and enjoyable even-  
ing was brought to a close by the sing-  
ing of the doxology.

## BIRTHDAY DINNER

Messrs. T. D. and P. R. Hardin Forty-  
five Years Old Saturday.

Prepared for The Telegram.  
On last Saturday a surprise dinner  
was given T. D. and P. R. Hardin, twin  
brothers, at the home of the former, in  
honor of their forty-fifth birthday. The  
dinner was planned, and kept a secret  
from the brothers, by Mrs. T. D. Hardin  
and their uncle, Mr. George Coble, from  
the State of Washington. When the  
brothers came in they were surprised  
to be greeted by so many relatives and  
friends but they soon were reminded it  
was their birthday and they heartily  
enjoyed the occasion. There were pres-  
ent a brother, two sisters, three uncles,  
an aunt, about sixteen nephews and  
nieces and some personal friends from  
the neighborhood—about forty in all.

The table was decorated with sweet  
peas and ferns and well supplied with  
many good edibles. After dinner every  
one felt satisfied that he had done jus-  
tice to the repast.

## B. Y. P. U. Officers.

The Baptist Young People's Union of  
Asheboro Street Baptist church met last  
night with Miss Myrtle Scarborough for  
the regular business meeting. The fol-  
lowing officers were elected: J. P. Harring-  
ton, president; Miss Vallie Scott, vice  
president; Miss Myrtle Scarborough, sec-  
retary and treasurer. After the business  
meeting delicious refreshments were  
served and the evening ended in a most  
delightful manner.

## AFTER NEBRASKA FOR BRYAN.

Commoner's Friends Hope to Bring State Under His Control Again  
Lincoln Cor. Washington Post.

Bryan Democrats in Nebraska are beginning a fight to regain control of the party, lost last fall, when Mr. Bryan endorsed the county option cause. The State convention adopted a platform with no reference to county option and nominated men known to be against this issue. The Bryanites then charged that the brewers were in control of the party Bryan and his friends supported Chester B. Aldrich for Governor, and accomplished the defeat of the Democratic candidate, Mayor Dahlman, of Omaha.

The Dahlman wing of the Democracy made it plain during this campaign that when Bryan comes back to the party he must do so on the terms of these in control. Mr. Bryan's friends, working, it is believed, with his advice, are now seeking to bring the Democracy of the State back to Mr. Bryan. They believe the task will not be difficult.

The opening gun of this campaign is to be fired on Bryan's birthday, March 15, when a banquet will be held with Bryan as the guest of honor at the Lincoln Bryan Club. Plans of the organization will be made known then, and will embrace a present organization of the State and the building up of a political machine.

Wolfe; vice president, Ernest Fields; secretary, Caral Atkinson; assistant secretary, Henry Litaker; treasurer, Guy Leighton; press reporter, Earl Ridge; teacher, Mr. T. A. Glascock.

After the officers were elected a motion was made and carried that a censor should be appointed by the president, his duty being to report all misbehavior. ## CHARGED WITH ASSAULTING GIRL

C. M. Edwards, Formerly of This City, In Jail Charged With Having Assaulted Daughter of Mr. C. E. McLean on Jan. 8—Mr. McLean Identifies the Prisoner—Edwards Claims He Can Prove Alibi—Retains Counsel.

Mr. C. M. Edwards, formerly of this city, but now living in Fuqua Springs, was brought to Greensboro last night and placed in jail without bond, having been arrested in Raleigh yesterday on a warrant charging "assault with intent to commit rape." A preliminary hearing will be held as soon as the defense can get witnesses here.

The prisoner is alleged to be the man who on Sunday afternoon, Jan. 8, assaulted the six-year old daughter of Mr. C. E. McLean, Fifth avenue, an account of which appeared in The Telegram on Tuesday following. For some days the officers have been suspecting that Mr. Edwards was the man as he was seen in the city a day or two previous and he filled the description pretty well. It was learned yesterday that the suspect would be in Raleigh and Deputy Sheriff Weatherly, accompanied by Mr. McLean went down to ascertain whether he was the right man.

Mr. McLean stated at once that he closely resembled the man wanted, but he did not think he wore glasses on the above mentioned day. When Mr. Edwards removed his glasses Mr. McLean stated that he was certain that Mr. Edwards was the man who assaulted his child and he was at once placed under arrest.

Mr. Edwards was seen last night by a reporter and he declared that it was a case of mistaken identity; that he could prove by numerous witnesses that he was not in Greensboro on the day the offense was committed. He said that he came to Greensboro on the night of January 4 and left for Fuqua Springs on the afternoon of Jan. 5 and had not been back since. Soon after his arrival he retained Mr. W. H. Swift and Mr. D. P. Stern to defend him and the attorneys after a consultation with the prisoner last night made the following statement: "Mr. Edwards claims this is a clear case of mistaken identity, that he will have no difficulty in proving that he was not in Greensboro on the day the act was committed as soon as he can get in touch with his witnesses who are in a distant town. Our conversation with several parties over the long distance phone tends to confirm his statement."

It will be remembered that the prisoner, while living here about a year ago made an attempt to shoot his wife, being under the influence of a dope or crazy. He was sent to an asylum and was discharged some time ago as cured. It is more than probable that in case he cannot prove an alibi the defense will attempt to show that the defendant is of unsound mind and is not responsible for his acts.

Prior to the time he committed the above offense Mr. Edwards was regarded as a trustworthy man. He is an accountant, by trade and has held several responsible positions in the city.
